

Ferrari Racer 2007 List

Mattel introduced Ferrari Racers in 2007 for Ferrari's 60th Anniversary. Although the Mattel package has no production year there are differences in the 3 years that so far have been produced. The first year's package was almost all red with a picture of a Ferrari Modena with the Hot Wheels logo on a blue top left corner. Packages from #17 to #24 came with a 60th Anniversary Ferrari sticker. All cars were made in Malaysia and have co-molded 6-spoke wheels with red-tipped axles. All are worth about \$3 mint loose and \$6 in package.

- **250 Testa Rossa** – M4716 – yellow, yellow base, chrome interior clear windshield, black and white stripes w/"01" on hood and sides, cm6gyrd-rim
